A few more questions...

What is your brand story, messaging, & brand guide?

(history, mission/values/motto/slogan/tagline, colors/fonts/rules, logo (send ASAP) etc.)

Are there any specifics you'd like me to be especially mindful of capturing?

(industry standards, dynamics, details, inspiration/poses, what to avoid, etc.)

Is there anything else you'd like me to know before our session?

-Do you prefer posed, candid, or a mix of both?

-Where will these live most often? (website, socials, print, etc.)
